WE'RE FOR AMERICA®AMERICANS!

Advance Agent of Prosperity

A NEW YORKER goes BRYAN'S Crown and cross one better. He declares "You shall not slay American labor with silver slug."

THE Democratic Free-trade "Tariff for Revenue Only" yielded just enough "revenue" in July to throw Uncle Sam deeper in debt to the tune of \$13,059, What a howling success this Free trade Administration has been, to be

EVERY Democratic Editor who has disposed of his soul to the Populists ought to read the patriotic words of Golonel L. E. CASEY of The Covington Bell, printed in another column, and then go off into a dark corner and see if he can tell "where he is at."

THE withdrawal from active politics of the Hou. WILLIAM F. HARRITY of Pennsylvania leaves a void that even PEFFER's whiskers cannot fill. HARRITY was Chairman of the Democratic National Committee: but he couldn't stomach such a dose as the Populist platform of Chicago and the schoolboy orator of the Platte.

THE Government of Costa Rica, which is a Free-Coinage-of-Silver country, has has just passed a law prohibiting the importation of foreign silver. All now in possession of private parties, must be disposed of within sixty days after which time the Government will require that it be sent to the Mint and exchanged for Costa Rican currency. The measure has caused a big fall in gold.

THE opinion of lawyers and state officers generally is to the effect that the Kentucky election laws bar fusion of political parties, and that BRYAN, therefore, will not profit in this state by the Populist vote. A large number who have investigated the subject say it is impossible for BRYAN's name to be placed under both the Democratic and Populist devices, and the only way in which BRYAN can be benefited will be for the Populists to withdraw their electors, which they are not inclined to

THE shoe is on the other foot in Florida. Two of the silver electors on the Democratic ticket resigned and the Democratic State Executive Committee appointed gold men in their places, making the state electoral ticket solid for gold. The silver leaders swear they will not stand it, and have issued a call to the free silver Democrats inviting their product. them to send delegates to another State Convention for the purpose of putting out another state and electoral ticket.

Bublic Ledger STEALING

Hon, A. L. Mims, Populist candidate for Governor of Tennessee, was interviewed a few days since on the nomination of Bryan and Watson. He said:

"We did what we went to St. Louis to do-we nominated rent issue the following appeal to the ema Southern man for Vice-President. I was greatly relieved when Watson consented to accept the nomination, as otherwise I would have been named. We could not nominate Sewall. He is a National banker and a railroad king. As to Mr. Bryan, the Democrats had stolen our man, but we stole him back; they also stole our platform, and we stole it back, too. We were perfectly satisfied with the nomination of Mr. Bryan. We know where he stands. We know him to be heartily in sympathy with our platform. He favors an irredeemable currency. He favors Government ownership of the railroads and the telegraph. I sincerely trust he will not accept our nomination or speak out for our platform. This will keep down prejudice. Mr. Jones's telegram to Mr. Bryan was ill-advised and a mistake, as it may give offense to some. Wall street was not only fooled at Chicago but at St. Louis as well. There were sinister influences at work, but they could not control. Democrats treated us with consideration. Chairman Iones attended our sessions and our conferences."

MAKING IT PLAIN.

THE CRIME OF 73" THE POPU LIST'S STOCK IN TRADE.

You can't talk with a free silver advoate two minutes before he will say some thing about "demonetization" and 'the crime of '73 " There is a confused notion abroad regarding this so-called crime, and The Youngstown Telegram is pleased to present a clear and impartial story of the events leading up to the passage of the Mintage Act of 1873.

The original measure was prepared in the Treasury Department during the winter of 1869-70, under the direction of Secretary of the Treasury George S. Boutwell. The laws had not been revised for a number of years, and as a result there was great confusion. The bill as prepared was a codification of existing laws together with improvements suggested by leading financiers of the country, Demo cratic and Republican. This bill was in troduced in the Senate June 25th, 1870, and was accompanied by a report explaining every section of it and giving reasons for its compilation and introduction. The measure passed the Senate by the vote of 36 to 14 on January 10th, 1871. It might be remarked right here silverite, voted with the majority. On too contemptible a motive to influence January 9th, 1872, the bill came up in the House for discussion. Various amendments regarding the coinsge of silver were suggested, and in the bill signed by the President February 12th, 1873, there was the following provision:

"That the silver coins of the United States shall be a trade dollar, a balf dollar or 50 cent piece, a quarter dollar or 25 cent piece, a dime or 10 cent piece; and the weight of the trade dollar shall be420grains troy; the weight of the half dollar shall be 12} grams; the weight of the quarter dollar and the dime shall be, respectively, onehalf and one fifth of the weight of said half dollar; and said coins shall be a egal tender at their nominal value for and loved it all our life, and we choose any amount not exceeding \$5 in any one Democracy.

Many free silver advocates charge that the old standard of 4124 grains was surreptitiously dropped out of the bill just before its passage, but an investigation shows that the 4124 grain dollar was never mentioned in the bill.

The Telegram wishes to call attention to the fact that the bill on its final passage was voted for by every man from the Pacific slope. More than that the strongest arguments in favor of the bill came from the Westerners. Senator to reject the religion of Jesus Christ? Stewart said, "I wan't the standard gold, and no paper not redeemable in gold." Two weeks later Mr. Stewart said, "Gold is the universal standard of the world. Everybody knows what a gold dollar is worth." And this Stewart is the man who is now shouting about "the crime of '73," but then this was before Mr. Stewart was employed as the representative of the silver mine owners to beom

In speaking of "the crime of '73," nine out of ten silverites will charge that one Ernest Sead came over the sea with \$500,000 of British gold and debauched The split will probably give the state to Congress. This has been conclusively Paul, Minn. For sale by J. Jas. Wood, world for bowel complaints. For sale by proven to be a falsehood, and yet the Druggist.

charges are repeated by the silver jaw smith.

From the records of Congress it is shown that the bill was before Congress three years; that it was printed many times; that it was considered by Senate and House Committees for five sessions; that it was debated at length and finally passed substantially as originally introduced. Had there been anything wrong surely the newspapers would have taken up the matter, but it is after twenty years that the charge of crookedness is made. The measure is a wise one, absolutely necessary at the time, and it will withstand the dastardly assaults of the free silver buccaneers at this late day.

The Stewart alluded to above is said to be a millionaire silver baron now, and all the contracts he makes are made rayable in gold. This is true of Altgeld and other silver leaders.

THE RIGHT RING.

THAT'S WHAT THE COVINGTON BELL CERTAINLY HAS.

The Convention Bell, edited by Col onel L. E. Casey, repudiates Bryan and Sewall and joins in the demand for a real Democratic ticket. It says:

"The Bell is Democratic from princithat Senator Stewart, the noted Nevada ple, not from mere partisanism; that is any honest, intelligent, self respecting

> "We stand by the party because it represents the best interests of the country-especially of the masses of the country-and its principles are promotive of all the elements of National honor and intelligent progress.

> "Hence, when a combination of Free Silver cranks, Communists, Populists and Anarchists seize the machinery of the party, as they did at Chicago, and proclaim a set of principles as only such men can agree upon, we are compelled to choose between their vicious schemes and true Democracy as we have known

> "That these dangerous elements mas querade under the name of Democracy doesn't give them the slightest claim upon any true Democrat. One who would support what he believed to be wrong in principle or injurious to the country simply because it is the dictum of his party convention is unworthy of citizenship. Suppose the Chicago Convention had recommended the religion of Brahma, or Buddha, or Mohammed, would any sensible Democrat feel obliged

"We may subject questions of party policy or expediency to the rule of the majerity, but we submit our principles to the dictation of no man or set of men.'

RAILWAY MEN TO ORGANIZE.

THEY'LL STAND FOR SOUND MONEY AND PROSPERITY.

The Railway Age, the greatest Railway men's paper in the United States, has issued as a supplement to its curployes of railways:

You have before you an opportunity such as has rarely been given to any class of men in history-the opportunity to be the controlling juterest in saving your country

There is no state in the Union in which, if you vote as a unit, you cannot turn the scale in any ordinary election. In the present crisis it rests with you to oppose a solid front-a bulwark of reason and of patriotism-to the flood of Free Silver madness which is rising in the Western and Southern states.

What interest have you in helping those who, blinded and led astray as THE "TWIN COMET" they are, propose to raid the Treasury and bankrupt the Nation only to make our mine-owners wealthy!

Certain classes care not what wreck may come to the country's commerce if only they can get cheap dollars for their crops. The miner may be willing to see the United States sink to the rank of a third class power, bankrupt and dishonored, if only the output of mines be doubled in value

But what is this to you? Your interests are bound up with the permanence of our commercial prosperity. For your honest work you want-and have a right-to get your pay in honest dollars. What will you profit by a depression in wages and an increase in all that your wages have to buy Do you want to get your pay in dollars worth fifty cents apiece?

Therefore, organize! This is no question of Republican or Democrat, but of your own protection as wage-earners. Organize for the preservation of Sound Money-in defense of your own wages-in support of the country's prosperity and the country's

At every shop and every division point on every railway in the country there ought to be a Railway Men's Sound Money Club. If you, who read this, are personally willing to take hold of the work of organization in your loyour fellows for their and your own benefit, write to The Railway Age, Chicago. Until the Central Organization of the Railway Men's Sound Money Clubs is perfected, we will send you all the information and literature you require, free.

Let rallway men of every class act tegether. It is as noble a cause as ever man put his hand to. Organize now and work, and when November comes and Free Silver is defeated, the people will know that the Railway men did their part nobly for the country's salvation."
